TO

GENERAL RADIO

EXPERIMENTER

VOLUME 36

JANUARY through DECEMBER 1962

INDEX BY TITLE

ACCURACY, PRECISION, AND CONVENIENCE FOR CAPACITANCE MEASUREMENTS (J. F. Hersh: August-September, 1962)

ADJUSTABLE AC POWER SOURCE, THE TYPE 1266-A (Gilbert Smiley: May, 1962)

ADJUSTABLE DC POWER SUPPLY, THE TYPE 1265-A (H. P. Hall: May, 1962)

ANALYZER, NEW, COMPACT, OCTAVE-BAND (W. R. Kundert: October, 1962)

AUDIO OSCILLATOR WITH SOLID-STATE CIRCUITRY, HIGH-PERFORMANCE, LOW-COST (R. G. Fulks: August-September, 1962)

AUTOMATIC MEASUREMENT OF PHONOGRAPH REPRODUCERS (B. B. Bauer: January-February, 1962)

A 10-MICROFARAD DECADE CAPACITOR (P. K. McElroy: July, 1962)

BALLISTICS OF INDICATING INSTRUMENTS, THE MEASUREMENT OF THE (H. C. Littlejohn: January-February, 1962)

BRIDGE, A PRECISE, GENERAL-PURPOSE IMPEDANCE (H. P. Hall: March, 1962)

CAPACITANCE-MEASURING ASSEMBLIES, TYPE 1610-B (April, 1962)

CAPACITANCE-MEASURING ASSEMBLY, TYPE 1620-A (August September, 1962)

COAXIAL CABLE CONNECTORS, NEW (John Zorzy: August-September, 1962)

COAXIAL EQUIPMENT WITH LOCKING-TYPE CONNECTORS (July, 1962)

CONVERTER FOR FREQUENCY MEASUREMENTS TO 500 MC, A NEW (H. T. McAleer: December, 1962)

COUNTER FOR FREQUENCY MEASUREMENTS TO 220 KC, A FIVE-DIGIT SOLID-STATE (R. W. Frank, J. K. Skilling: April, 1962)

COUNTER MEASUREMENTS — DIGITS CAN LIE — A DISCUSSION OF ERROR SOURCES IN (H. T. McAleer: December, 1962)

DECADE CAPACITOR, A 10-MICROFARAD (P. K. McElroy: July, 1962)

DIGITS CAN LIE — A DISCUSSION OF ERROR SOURCES IN COUNTER MEASUREMENTS (H. T. McAleer: December, 1962)

ERROR SOURCES IN COUNTER MEASUREMENTS — DIGITS CAN LIE — A DISCUSSION OF (H. T. McAleer: December, 1962)

FIVE-DIGIT SOLID-STATE COUNTER FOR FREQUENCY MEASUREMENTS TO 220 KC, A (R. W. Frank, J. K. Skilling: April, 1962)

FREQUENCY MEASUREMENTS TO 220 KC, A FIVE-DIGIT SOLID-STATE COUNTER FOR (R. W. Frank, J. K. Skilling, April, 1962)

FREQUENCY MEASUREMENTS TO 500 MC, A NEW CONVERTER FOR (H. T. McAleer: December, 1962)

GENERAL RADIO AT SEATTLE WORLD'S FAIR (October, 1962)

General Radio Comes to Texas (November, 1962)

Gravity, Strobo-Tracking (October, 1962)

High-Performance, Low-Cost Audio Oscillator with Solid-State Circuitry (R. G. Fulks: August-September, 1962)

High-Speed Photography Techniques at MIT, Seminar on (May, 1962)

Impedance Bridge, A Precise, General-Purpose (H. P. Hall: March, 1962)

Impedance Bridge, Relay-Rack Mount for the (November, 1962)

Indicator, The Numerik (April, 1962)

Inductance of Iron-Core Coils, A New System for Measuring the (R. G. Fulks, H. P. Hall: May, 1962)

Iron-Core Coils, A New System for Measuring the Inductance of (R. G. Fulks, H. P. Hall: May, 1962)

Locking-Type Connectors, Coaxial Equipment with (July, 1962)

Measurement of the Ballistics of Indicating Instruments, The (H. C. Littlejohn: January-February, 1962)

Measurements, Accuracy, Precision, and Convenience for Capacitance (J. F. Hersh: August-September, 1962)

More and Better Pulses From the Unit Pulse Generator (R. W. Frank: January-February, 1962)

More Talents, New Dress, for the Output Power Meter (Gilbert Smiley: January-February, 1962)

New Coaxial Cable Connectors (John Zorzy: August-September, 1962)

New, Compact, Octave-Band Analyzer (W. R. Kundert: October, 1962)

New Converter for Frequency Measurements to 500 Mc, A (H. T. McAleer: December, 1962)

New PZT Ceramic Vibration Pickup and Control Box for Vibration Measurements (E. E. Gross: November, 1962)

New System for Measuring the Inductance of Iron-Core Coils, A (R. G. Fulks & H. P. Hall: May, 1962)

New Variac® autotransformer with Built-In Voltmeter (July, 1962)

New 3-Wire Power Cord (April, 1962)

Numerik Indicator, The (April, 1962)

Octave-Band Analyzer, New, Compact (W. R. Kundert: October, 1962)

Oscillator for S-Band Measurements, A Test (Per Bergstad: January-February, 1962)

Output Power Meter, More Talents, New Dress, for the (Gilbert Smiley: January-February, 1962)

Phonographic Reproducers, Automatic Measurement of (B. B. Bauer: January-February, 1962)

Photocell Where it Counts, Using a (October, 1962)

Power Cord, New 3-Wire (April, 1962)

Power Source, The Type 1266-A Adjustable AC (Gilbert Smiley: May, 1962)

Power Supply, The Type 1265-A Adjustable DC (H. P. Hall: May, 1962)

Precise, General-Purpose Impedance Bridge, A (H. P. Hall: March, 1962)

Precision, and Convenience for Capacitance Measurements, Accuracy. (J. F. Hersh: August-September, 1962)

Pulses From the Unit Pulse Generator, More and Better (R. W. Frank: January-February, 1962)

Relay-Rack Mount for the Impedance Bridge (November, 1962)

Rose-Colored Glasses for White Noise (J. J. Faran: July, 1962)

S-Band Measurements, A Test Oscillator for (Per Bergstad: January-February, 1962)

Seattle World's Fair, General Radio at (October, 1962)

Seminar on High-Speed Photography Techniques at MIT (May, 1962)

Solid-State Circuitry, High-Performance, Low-Cost Audio Oscillator with (R. G. Fulks: August-September, 1962)

Solid-State Counter for Frequency Measurements to 220 kc, A Five-Digit (R. W. Frank, J. K. Skilling: April, 1962)

Standard-Frequency Calibration, VLF (F. D. Lewis: June, 1962)

Strobo-Tracking Gravity (October, 1962)

Test Oscillator for S-Band Measurements, A (Per Bergstad: January-February, 1962)

Texas, General Radio Comes to (November, 1962)

Type 1211-C, An Improved Unit Oscillator, The (E. Karplus: October, 1962)

Type 1265-A Adjustable DC Power Supply, The (H. P. Hall: May, 1962)

Type 1266-A Adjustable AC Power Source, The (Gilbert Smiley: May, 1962)

Type 1610-B Capacitance-Measuring Assemblies (April, 1962)

Type 1620-A Capacitance-Measuring Assembly (August-September, 1962)

Unit Oscillator, The Type 1211-C, An Improved (E. Karplus: October, 1962)

UNIT PULSE GENERATOR, MORE AND BETTER PULSES FROM THE (R. W. Frank: January-February, 1962)

USING A PHOTOCELL WHERE IT COUNTS (October, 1962)

VARIAC® AUTOTRANSFORMER WITH BUILT-IN VOLTMETER, NEW (July, 1962)

VIBRATION MEASUREMENTS, NEW PZT CERAMIC VIBRATION PICKUP AND CONTROL BOX FOR (E. E. Gross: November, 1962)

VLF STANDARD-FREQUENCY CALIBRATION (F. D. Lewis: June, 1962)

WHITE NOISE, ROSE-COLORED GLASSES FOR (J. J. Faran: July, 1962)

INDEX BY AUTHOR

BAUER, B. B.
Automatic Measurement of Phonograph Reproducers (January-February, 1962)

BERGSTAD, PER
A Test Oscillator for S-Band Measurements (January-February, 1962)

FRANK, R. W.
More and Better Pulses From the Unit Pulse Generator (January-February, 1962)

FRANK, R. W., J. K. SKILLING
A Five-Digit Solid-State Counter for Frequency Measurements to 220 kc (April, 1962)

FULKS, R. G.
High-Performance, Low-Cost Audio Oscillator with Solid-State Circuitry (August-September, 1962)

FULKS, R. G., H. P. HALL
A New System for Measuring the Inductance of Iron-Core Coils (May, 1962)

GROSS, E. E.
New PZT Ceramic Vibration Pickup and Control Box for Vibration Measurements (November, 1962)

HALL, H. P.
A Precise, General-Purpose Impedance Bridge (March, 1962)
The Type 1265-A Adjustable DC Power Supply (May, 1962)

HALL, H. P., R. G. FULKS
A New System for Measuring the Inductance of Iron-Core Coils (May, 1962)

HERSH, J. F.
Accuracy, Precision, and Convenience for Capacitance Measurements (August-September, 1962)

KARPLUS, E.
The Type 1211-C, An Improved Unit Oscillator (October, 1962)

KUNDERT, W. R.
New, Compact, Octave-Band Analyzer (October, 1962)

LEWIS, F. D.
VLF Standard-Frequency Calibration (June, 1962)

LITTLEJOHN, H. C.
The Measurement of the Ballistics of Indicating Instruments (January-February, 1962)

MCALEER, H. T.
A New Converter for Frequency Measurements to 500 Mc (December, 1962)
Digits Can Lie — A Discussion of Error Sources in Counter Measurements (December, 1962)

MCELROY, P. K.
A 10-Microfarad Decade Capacitor (July, 1962)

SKILLING, J. K., R. W. FRANK
A Five-Digit Solid-State Counter for Frequency Measurements to 220 kc (April, 1962)

SMILEY, G.
More Talents, New Dress, for the Output Power Meter (January-February, 1962)
The Type 1266-A Adjustable AC Power Source (May, 1962)

UNSIGNED
Capitol Service (December, 1962—p 12)
Coaxial Equipment with Locking-Type Connectors (July, 1962 — p 8)
General Radio at Seattle World's Fair (October, 1962 — p 15)
General Radio Comes to Texas (November, 1962 — p 8)
New Link Unit for the Graphic Level Recorder (March, 1962 — p 12)
New Variac® autotransformer with Built-In Voltmeter (July, 1962 — p 8)
New 3-Wire Power Cord (April, 1962 — p 9)
Numerik Indicator, The (April, 1962 — p 10)
Relay-Rack Mount for the Impedance Bridge (November, 1962 — p 7)
Seminar on High-Speed Photography Techniques at MIT (May, 1962 — p 16)
Strobo-Tracking Gravity (October, 1962 — p 14)
Type 1610-B Capacitance-Measuring Assemblies (April, 1962 — p 12)
Type 1620-A Capacitance-Measuring Assembly (August-September, 1962 — p 14)
Using A Photocell Where it Counts (October, 1962 — p 12)

ZORZY, JOHN
New Coaxial Cable Connectors (August-September, 1962)

INDEX BY TYPE NUMBER

TYPE CAP-22 THREE-WIRE POWER CORD
New 3-Wire Power Cord (April, 1962)

TYPE IND-0300, IND-1801 NUMERIK INDICATORS
The Numerik Indicator (April, 1962)

TYPE W5MT3VM METERED VARIAC® AUTOTRANSFORMERS
New Variac® autotransformer with Built-In Voltmeter (July, 1962)

TYPE 874 COAXIAL CONNECTOR
Coaxial Equipment with Locking-Type Connectors (July, 1962)
New Coaxial Cable Connectors (John Zorzy: August-September, 1962)

TYPE 1133-A FREQUENCY CONVERTER
A New Converter for Frequency Measurements to 500 Mc (H. T. McAleer: December, 1962)

TYPE 1150-A DIGITAL FREQUENCY METER
A Five-Digit Solid-State Counter for Frequency Measurements to 220 kc (R. W. Frank, J. K. Skilling: April, 1962)

TYPE 1211-C UNIT OSCILLATOR
The Type 1211-C, An Improved Unit Oscillator (E. Karplus: October, 1962)

TYPE 1217-B UNIT PULSE GENERATOR
More and Better Pulses From the Unit Pulse Generator (R. W. Frank: January-February, 1962)

TYPE 1265-A DC POWER SUPPLY
The Type 1265-A Adjustable DC Power Supply (H. P. Hall: May, 1962)

TYPE 1266-A AC POWER SOURCE
The Type 1266-A Adjustable AC Power Source (G. Smiley: May, 1962)

TYPE 1311-A AUDIO OSCILLATOR
High-Performance, Low-Cost Audio Oscillator with Solid-State Circuitry (R. G. Fulks: August-September, 1962)

TYPE 1360-A MICROWAVE OSCILLATOR
A Test Oscillator for S-Band Measurements (Per Bergstad: January-February, 1962)

TYPE 1390-P2 PINK-NOISE FILTER
Rose-Colored Glasses for White Noise (J. J. Faran: July, 1962)

TYPE 1424-A STANDARD POLYSTYRENE CAPACITOR
A 10-Microfarad Decade Capacitor (P. K. McElroy: July, 1962)

TYPE 1521-A GRAPHIC LEVEL RECORDER
Automatic Measurement of Phonograph Reproducers (B. B. Bauer: January-February, 1962)

TYPE 1521-P14 RECORDER LINK UNIT
New Link Unit for the Graphic Level Recorder (March, 1962)

TYPE 1531-A STROBOTAC® ELECTRONIC STROBOSCOPE
The Measurement of the Ballistics of Indicating Instruments (H. C. Littlejohn: January-February, 1962)

TYPE 1536-A PHOTOELECTRIC PICKOFF
Using a Photocell Where It Counts (October, 1962)

TYPE 1558-A, -AP OCTAVE-BAND NOISE ANALYZERS
New, Compact, Octave-Band Analyzer (W. R. Kundert: October, 1962)

TYPE 1560-P4 PZT MICROPHONE ASSEMBLY
New, Compact, Octave-Band Analyzer (W. R. Kundert: October, 1962)

TYPE 1560-P11B, -P11S2, -P52 VIBRATION PICKUP SYSTEM
New PZT Ceramic Vibration Pickup and Control Box for Vibration Measurement (E. E. Gross: November, 1962)

TYPE 1608-A IMPEDANCE BRIDGE
A Precise, General-Purpose Impedance Bridge (H. P. Hall: March, 1962)

TYPE 1610-B, -B2 CAPACITANCE MEASURING ASSEMBLIES
Type 1610-B Capacitance-Measuring Assemblies (April, 1962)

TYPE 1615-A CAPACITANCE BRIDGE
Accuracy, Precision, and Convenience for Capacitance Measurements (J. F. Hersh: August-September, 1962)

TYPE 1620-A CAPACITANCE-MEASURING ASSEMBLY
Type 1620-A Capacitance-Measuring Assembly (August-September, 1962)

TYPE 1633-A INCREMENTAL-INDUCTANCE BRIDGE
A New System for Measuring the Inductance of Iron-Core Coils (R. G. Fulks, H. P. Hall: May, 1962)

TYPE 1650-AR IMPEDANCE BRIDGE
Relay-Rack Mount for the Impedance Bridge (November, 1962)

TYPE 1840-A OUTPUT POWER METER
More Talents, New Dress, for the Output Power Meter (G. Smiley: January-February, 1962)
Relay Rack-Mounting for the Output Power Meter (March, 1962)

Printed in U.S.A.
